- Provide technical support to CEO and act as technical expert on interview panels.

GOOGLE

San Francisco, CA

Software Engineer III

Oct. 2023 – Present

- Function as the primary on-call engineer 24 hours/day for 28 days/year, responding to all system outages within five minutes and thereafter, recommending system improvements to senior engineering leadership.
- Collaborated with Samsung to design and program platform project responsible for providing 40,000+ virtual sims to our users.
- Partnered with three engineers to ensure backend retention of user consent records, saving millions of dollars in regulatory fees.
- Performed 20+ technical interviews and supplied hiring recommendations.

Software Engineer II

July 2021 – Oct. 2023

- Liaised with product support and steered meetings with UX team to extend device protection program, increasing annual recurring revenue by \$100,000.
- Spearheaded server-side launch and implementation of Wi-Fi calling for 100,000+ iPhone users, amassing positive press coverage from 9to5Google and CNET.
- Directed QA teams and served round-the-clock as sole point of contact for four-day migration of customer-management system, handling 100,000+ requests daily.
- Interfaced with three partner companies across three different countries to gather requirements for pricing pipeline, which has processed over 60 million cellular data records.
- Led design review with engineering team for retention project, resulting in 10,000+ user actions from high lifetime value users at-risk of losing cellular service.

FREELANCE CONSULTANT

Multiple Locations

Website Developer

Jan. 2017 – Present

- Maintain personally-coded collection of four live websites with thousands of pageviews yearly.
- Garnered requirements and developed websites for organizations including The Cornell Language Expansion Program, Janet's Kitchen, American Cooperative School, i-Farm and SOS-Hermann Gmeiner International College.
- Guided CEO of Blossom Academy (West African startup working to upskill underserved communities) through initiation of first company website with close to 10,000 pageviews and which was instrumental in winning a \$100,000 grant from the Dubai government.
